

3rd Bone Workshop and Conference

Dec 3-5, 2015, Top Hotel, Prague, Czech Republic

Bruce BUDOWLE

University of North Texas, USA

Jeremy AUSTIN

Australian Centre for Ancient DNA
Adelaide, Australia

Michael HOFREITER

Potsdam University, Germany

Daniel VANEK

Charles University, CZE

Jiri SINDELAR

GEO-CZ, CZE

Jan FRÖLIK

Inst. Archaeology Prague, CZE

Bruce JACKSON

MassBay Community College
MA, USA

Angie AMBERS

University of North Texas, USA

Participants of the 3rd BONE WORKSHOP
and CONFERENCE 2015 can participate in a

COLLABORATIVE EXERCISE on DNA based ID of BONE SAMPLES

The aim of the exercise is to make progress on standardization and to identify the technical problems connected with identification of bone samples and difficult DNA templates. The results of the collaborative exercise will be published. Certificates of successful completion will be issued to all participants.

TOPICS INCLUDE

Microbial forensics & non-DNA techniques

Massive Parallel Sequencing of small
amounts of degraded DNA

DNA extraction methods, Removal of inhibitors & DNA sample enrichment

DNA phenotyping and bioancestry prediction

Evaluation of the 1st Collaborative exercise
on DNA identification of bone samples

Case reports
